PROFESSIONAL EXPERIENCE

HAULHUB

Full-Stack Developer

Remote (Netherlands)
Contract Jun 2025 - Present

- Architecting and developing a multi-service logistics platform (Uber-like) using **Next.js, NestJS, and React Native (Expo)**.
- Designing and implementing secure role-based workflows across **5+ distinct user types** in a production environment.
- Integrating **Stripe payment workflows** for transaction handling and subscription logic.
- Deploying and maintaining **Dockerized services on Hetzner VPS using Coolify**.
- Collaborating within a cross-functional team (5 developers, 3 designers, and a product manager) to ship scalable production features under tight deadlines.

ANALYTICS-DEPOT

Full-Stack Developer

Freelance (USA)
2024 - Present

- Built a **RAG-based AI system** using FastAPI to improve query accuracy and responsiveness.
- Developed a production-ready frontend using **Next.js** and deployed services on VPS infrastructure.
- Optimized CI/CD pipelines, reducing deployment time from ~30 minutes to under 5 minutes.
- Maintained **99%+ uptime** across deployed applications.

RENTALS

Full-Stack Developer

Freelance (United Kingdom)
2023

- Designed and deployed a real estate platform using **Next.js (App Router, SSR & CSR)**.
- Implemented **Redis caching** to improve API response performance.
- Integrated **Stripe subscriptions** and built an admin listing management system.
- Managed full VPS deployment and production infrastructure independently.

FREELANCE SOFTWARE ENGINEERING

2022 - PRESENT

- Delivered **6+ full-stack production applications** using Next.js, React, and Express.
- Implemented new features, resolved complex frontend/backend production bugs, and improved system performance.
- Managed VPS deployments and production troubleshooting for international clients.
- Maintained a **5.0/5 Fiverr rating** across global projects.

EXCLUSIVE LABS

WEB DEVELOPMENT INTERN

REMOTE
SEPTEMBER 2024 - DECEMBER 2024

- Developed a course management system using **Next.js and Express**.
- Implemented secure **role-based authentication** for students, instructors, and admins.

PROJECTS

MUNIA OPEN SOURCE SOCIAL MEDIA

- Contributed to a **Next.js open-source project (300+ GitHub stars)**.
- Implemented authentication-aware navigation and dynamic UI logic.

PROFITABLE LOCAL MOBILE APP

- Developed the desktop application and led the **v2 mobile rebuild using React Native (Expo)**.
- Improved application performance and maintainability.

CERTIFICATIONS & ACHIEVEMENTS

HACKATHON WINNER

2024

- Secured 1st place for developing an innovative tech solution in a competitive ideathon.

HACKATHON EXPERIENCE

2024

- Participated in 5+ hackathons focused on competitive programming, logistics optimization, AI.

EDUCATION

MASTER'S DEGREE IN COMPUTER SCIENCE

Expected 2027

Higher School of Computer Science and Digital Technologies (ESTIN)

TECHNICAL SKILLS

- **FRONTEND:** REACT, NEXT.JS (APP & PAGES ROUTER), TYPESCRIPT, JAVASCRIPT (ES6+), REACT NATIVE (EXPO), TAILWIND CSS
- **BACKEND:** FASTAPI, PYTHON, NODE.JS, NESTJS, EXPRESS.JS, REST API DESIGN, ROLE-BASED ACCESS CONTROL
- **DATABASE:** POSTGRESQL, REDIS (CACHING), MONGODB, PRISMA ORM
- **DEVOPS:** DOCKER, CI/CD PIPELINES, GIT, GITHUB ACTIONS, VPS DEPLOYMENT (HETZNER), COOLIFY
- **OTHER:** STRIPE (PAYMENTS & SUBSCRIPTIONS), GOOGLE MAPS API, OAUTH, SEO OPTIMIZATION
