Full-Stack Engineer with 3+ years of production experience building and shipping web and mobile products end-to-end. Frontend Lead on a production AI analytics SaaS and Co-Founder/Lead Engineer of DzStore, an e-commerce SaaS reaching 2,000+ merchant signups and 50+ paying merchants within its first three months through organic SEO.

EXPERIENCE

Full-Stack Engineer (Frontend Lead) | Analytics Depot | AI Analytics SaaS, USA | Remote Apr 2025 - Present

- **Built most of the user-facing product**, as the 2nd-highest contributor on a ~10-person team, owning the frontend across five AI analytics workspaces, dashboards, reporting, data visualization, realtime features, and AI-powered workflows.
- **Developed the data integration platform across 14 sources**, including BigQuery, Snowflake, Databricks, Redshift, PostgreSQL, GA4, Google Sheets, Gmail, Slack, and YouTube, with OAuth2, scheduled syncs, encrypted credentials, and failure monitoring.
- **Shipped the AI/RAG experience**, covering CSV, PDF, Excel, and image analysis with streaming answers, source citations, automated root-cause/forecast/outlier analysis, and LLM cost and reliability observability.
- **Owned production deployment and VPS infrastructure**, cutting deployment time from ~30 minutes to under 5 with zero-downtime deployments.

Full-Stack Engineer (Contract) | HaulHub | Logistics Marketplace, Netherlands | Remote Jun 2025 - May 2026

- **Built core backend, web, and mobile systems for a production logistics marketplace**, live in the Netherlands with 12 service categories, 100+ subcategories, 5 languages, and full RTL.
- **Engineered the on-demand dispatch system end-to-end**, including nearest-provider matching, competing price/pickup-time offers, an 11-state request lifecycle, per-ride WebSocket tracking, and Stripe escrow with automated cancellation refunds.
- **Architected the B2B fleet and multi-role platform**, spanning 5+ user roles, then launched the React Native app and production infrastructure with realtime chat, maps, Dockerized services on Hetzner/Coolify, and Sentry monitoring.

Co-Founder & Lead Engineer | DzStore | E-commerce SaaS, Algeria Jun 2025 - Present

- **Grew the platform to 2,000+ merchant signups, 1,800+ live stores, 5,000+ products, and 2,000+ orders**, with 50+ merchants upgrading to paid plans within the first three months through organic SEO.
- **Architected the platform end-to-end**, including multi-tenant storefronts, custom domains, product/order management, payments, analytics, themes, and integrations with 70 delivery providers.
- **Launched the entire React Native merchant app for iOS and Android**, with inventory management, realtime orders, push notifications, order tracking, and multilingual/Arabic RTL support.
- **Scaled organic SEO to 15,000+ indexed pages**, generating 3,000+ monthly Google Search clicks and 100,000+ impressions.
- **Migrated the production PostgreSQL database with zero downtime**, reducing database costs by 50%+, while maintaining 4.7/5 across 200+ merchant survey responses and operating with 1,000+ automated tests.

Freelance Full-Stack Developer | Global clients | Remote Jun 2023 - Jun 2025

- **Delivered 6+ production applications**, rated 5/5 across client projects on Fiverr, for clients in the UK, USA, Netherlands, Japan, and Saudi Arabia.
- **Created a Rightmove-style property platform**, with interactive map search, realtime chat, AI-generated descriptions, Stripe tenancy payments, Redis caching, and independent VPS deployment, plus a serverless SharePoint to Zoho CRM automation for contract processing and notifications.

Web Development Intern | Exclusive Labs | Remote Sep - Dec 2024

- Created a course management system (Next.js + Express) with role-based auth for students, instructors, and admins.
